FREQUENTLY ASKED QUESTIONS (FAQ)

Frequently Asked Questions (FAQ) for SOCI 1301

These questions are among the ones most frequently asked by online psychology students or should be asked and answered for successful participation in and completion of this course. Issues discussed in these questions relate to technological concerns as well as questions specific to the course itself.

1. *Do I need to purchase a textbook?* **ANSWER:** Optional. Hint: all my test questions come straight from my lecture notes.

2. *How can I make sure I earn an 'A' in this course?* **ANSWER:** Complete all assignments satisfactorily, follow all guidelines, observe all deadlines, get involved in the course, send e-mails to your classmates and myself. Also complete all required quizzes and other assignments with scores that give you the required number of course points for the coveted grade of A you desire.

3. *Is it true that online courses are easier than Face-2-Face courses?* **ANSWER:** I would say no, for some. However, if you are a mature student and an independent learner you will have no problems in the course. If you are self-motivated student you will do well. In order to be successful in this course, you will need to spend at least as much time and effort on a good online course as you would in a comparable on-campus course, or possibly more.

4. *How much extra credit do you offer in this course?* **ANSWER:** You will find the answer to that question in the syllabus and clearly stated. NONE!

5. *Will I need to have a computer of my own to succeed in this course?* **ANSWER:** Not necessarily, but it would help. If you rely on using a computer belonging to a friend, you may find that the equipment may not be available when you need or want to use it. However, be creative. The libraries have public computers and Kinko's is probably not too far away.

6. *How can I see the questions I miss on a quiz?* **ANSWER:** You can't see missed questions. If this type of feedback is essential to your peace of mind or your educational philosophy, then this online course is not for you. Questions are pulled into an exam by a *Moodle question generator* and always in a constantly changing random order. No two exams are identical.

7. *Can I e-mail or fax my assignments to you instead of going through the MOODLE system?* **ANSWER:** NO! Next question :)

8. *How can I get a copy of your lecture notes?* **ANSWER:** You will find my lecture notes (or a chapter outline) posted on the MOODLE site under each topic.

9. *Will you print a copy of your lecture notes and mail/fax them to me?* **ANSWER:** No.

10. *When are the assignments due?* **ANSWER:** Check the syllabus. Just scroll down, all assignments and their deadlines are listed in the syllabus.

11. *What do I do when my computer crashes in the middle of a quiz?* **ANSWER:** As the **Syllabus** says, send me an e-mail immediately and then call your ISP to get the problem of being disconnected fixed.

12. *Where can I get a copy of the syllabus for this course?* **ANSWER:** There are links to the syllabus within the MOODLE SOCI 1301 course e-classroom. Look under - guess what? **Syllabus**.

13. *Do you accept late assignments?* **ANSWER:** In general I do not accept late assignments. I do not feel it is fair to make exceptions except in extenuating circumstances, which I review on a case-by-case basis. The best thing to do is, stay in touch. Let me know what is going on. I usually can work through any temporary problems students may find.

14.. *Can I take an exam early if I have a good reason like, medical, business, vacation?* **ANSWER:** Generally, I will work with individual situations. The most important thing is to let me know what is going on. Talk with me.

15. *Is it possible to get an incomplete in this course?* **ANSWER:** Short answer - NO! Long answer - NO because it should never be necessary. However, I will listen and make this decision on a case-by-case basis.

16. *What do I need to know about computers and the Internet to take your online course?* **ANSWER:** *How to use a web browser, preferably *Microsoft Internet Explorer*. *How to save addresses of favorite websites using *Favorites* *How to navigate on the Internet using a web browser. *How to use a word processing application such as *Microsoft Word*, *Notepad*, or *Word Pad* *How to create a word processing document and save that document to a computer disk, either in read-only memory or on a floppy disk or USB-accessible memory storage *How to create an e-mail message and send that message to the desired recipient *How to open, read, and respond to an e-mail message that you have received. *How to save and print web pages to read offline. *How to save word processor documents in text or rich-text format.

17. *What skills do successful online students have that I need to be successful in your course?* **ANSWER:** *How to navigate within the online course and find elements and components necessary for successfully completing the course. *Know how to let the instructor and classmates know that you are present and ready to start to work. *How to post messages on the discussion board as well as access, read, and respond to messages posted by others. *How to access, read, and successfully complete online exams in the course. *Be able to communicate through writing. *Be able to think ideas through before responding. *Be able to work with others in completing projects *Be able to use the technology properly. *Be able to meet the minimum standards as set forth by the institution. *Be able to keep up with the class and complete all work on time.

18. *What characteristics do successful online students have that will help me be more successful in your course and more likely to complete the course with positive outcomes?* **ANSWER:** *Be open minded about sharing life, work, and educational experiences as part of the learning process. *Be self-motivated and self-disciplined. *Be willing to "speak up" if problems arise. *Be willing and able to commit to 6 to 12 hours per week per course. *Be able to meet the minimum requirements for the program. *Be willing to accept critical thinking and decision making as part of the learning process. *Accept and hold the belief that high quality learning can take place without going to a traditional classroom. *Enjoy communicating in writing. *Have the desire to be in the course and to want the experience of successfully completing an online course.

It would be important for you to understand my definition of **Participation**. In this course **Participation** is synonymous with student success. You must understand **the how to** in this course. There are multiple ways of earning participation points. Understand each way and you will succeed in the course.

I expect you will want to login at least TWICE a week (to the MOODLE course site) but **when** you work on this course is up to you. Remember, this is a 24/7 (available 24 hours per day; 7 days per week) electronic classroom. Successful students will establish a time schedule and adhere to that schedule. Check your

e-mail and Announcement frequently. In turn I expect to receive at least an e-mail once a week from you.

You don't want that and I don't want that either. I need you to attend to your grades in a timely manner. This is important.

ATTENDANCE

Attendance requirements is that each students log-in to the course a minimum of TWICE weekly. If a student fails to meet this minimal requirement, I will count them absent for that particular week.

NEED TECH SUPPORT?

I am NOT a computer person, so if you need some type of technical assistance with your MOODLE account, Jagmail, or other technology needs, I would recommend that you contact the IT Department: help@jacksonville-college.edu

CORRESPONDING BY E-MAIL

When you send me your weekly Check-In e-mail, send it to my Jacksonville e-mail address, wmills@jacksonville-college.edu. Some students have found it very helpful to know what my personal schedule is like as far as responding to student e-mails. I receive anywhere from 30 to 50 e-mails a day and cannot provide a 24/7 response schedule. Generally, I will respond to student e-mails within 24 hours on a daily basis - worse-case scenario. If you contact me and do not receive a response within 24 hours, please resend your e-mail. On Friday, Saturday and Sunday I *shall attempt* to check my e-mail late morning and late afternoon. My philosophy towards e-mail communication is that if you need to get in touch with me I want to be available to you. Understand that I do have other things going on.....mainly, my family time! So while I shall make a commitment to my students to follow this schedule, it may or may not be possible all the time. But the 24 hour reply schedule, should, for the most part, be possible. There are some exceptions to the 24 hour rule – should I go out of town for a conference or illness. Otherwise, you send ‘em and I will reply to ‘em. Just ask some of my past students.

A few pointers on e-mails. Please use the subject line to help me organize your e-mails. I teach PSYC 2301, PSYC 2314, and SOCI 1301 online. Tell me you are in **SOCI 1301** as the FIRST thing in your Subject Line. Please give me a clue in the subject line so I can make some effort to catalog your e-mails. I must find more efficient methods in managing e-mails in this course. I need your help in doing this.

Sometimes, if your e-mail address is a ‘dot com’ – hotmail.com or yahoo.com – for whatever reason, I get some of them back as undeliverable and yet the next time they go through with no problem. That is why if you send me an e-mail and I don’t reply in 24 hours, send it again. If you still don’t receive a reply, call me at the college and leave a voice mail message.

If you use AOL (maybe others) I need your help. When I reply to your e-mail, I return your original e-mail in my reply. I had to set my e-mail options to do this. I

need you to bug AOL – you know that ISP with such great Customer Service – and ask them to help you set your e-mail account so that you can return my e-mail with your reply – if there is one. Sometimes, this is no big deal. If you ask me for a question and I respond to you, I need all our e-mail traffic on that topic - whatever the topic. It is a very big deal when you ask me a question on say, Monday, I reply on Monday, and you reply on say, Thursday with a simple “YES – that would be fine.” I have received 150 e-mails since Monday and I don’t have a clue what you meant by ‘Yes, that would be fine’. Now another e-mail back to you to ask for clarification. Help me help you. PLEASE return my e-mails when you reply.

One final word on e-mails, please sign your enrolled name to your e-mails. You can set this up automatically, but someone else will have to tell you how.

RESPONDING TO STUDENT MESSAGES:

All student inquiries will be responded to within 24 hours, with the exception of weekends and holidays.

EXTRA CREDIT OPTIONS

There will be no opportunities for extra-credit points in this course.
